

## **MERDACOM BOWLER CONVERTS 7-10 SPLIT**

Gene Osolinsky of the MERDACOM Tenpin League is one sports fan who would like to see instant replay equipment installed in bowling alleys as well as on football fields.

When Gene picked up the 7-10 split in a recent league match, it was the second time that he had made the "once in a lifetime" shot. However, he has yet to witness the feat! In both cases, he turned around before the 7 caromed off the backboard and cut down the pin in the opposite corner.

Gene knows that the cost of instant replay is enormous, but he would be glad to contribute just in case he overcomes the million to one odds and makes the shot for the third time.
