The above ranking was calculated using the following criteria:

- ✓ The bowler must participate in at least three NCABA-sanctioned leagues, with a minimum of 66 games in each league.
- ✓ The bowler must have a qualifying average as defined above in at least two different bowling centers.
- ✓ The bowler must have a total of at least 200 games in qualifying leagues as defined above.
- ✓ The bowler must participate in all events (team, singles, and doubles) of the current bowling season's NCABA Championship Tournament.
- ✓ Once qualified, a bowler's composite average will be calculated by totaling all pins in NCABA-sanctioned leagues (21 games or more) and all pins from the Championship Tournament and dividing the total by the sum of all the games.

Hall of Famer Mark Glover previously appeared atop the official NCABA Top 10 ranking for the 1985-86, 1986-87, 1987-88, 1988-89, and 2001-02 seasons.
