Turbo On The Scene With New Products 'Power Supplies' Introduced at the Super Mini

Turbo 2-N-1 Grips, the best bowling ball grip company in the world, is back again at the Super Bowl Mini, and this year with a brand new product.

'Power Supplies' is an all new line of multifunctional tape designed with serious bowlers in mind. The Power Supplies line consists of four specially designed types of tape bowlers can wear on finger or thumb to enhance fit, improve grip, and protect from injury.

Two types of fitting tape will help bowlers achieve that perfect feel needed for top performance. The fitting tapes are made of highest quality cotton and come in two textures. The mint color is a course texture, and the beige is a semi-course.

For bowlers who already have injured digits or have tender spots on thumb or fingers, a black polyester patch tape fits the bill and replaces messy liquid patch products. And rounding out the line is a tacky polyester and urethane grip tape. It's designed to be used by bowlers who don't use or don't like the feel of traditional finger inserts.

To sample these dynamic new products, Mini Eliminator bowlers can stop by the Turbo booth on the Gold Coast concourse anytime during the Super Mini. Chrissy Wissinger and Annette Kurzawa will show you the new tape and answer questions.

Of course, Turbo also has the full line of great grips on display and a beautiful line of Turbo and Mini Eliminator logo merchandise. Mini bowlers who stop by can also register for a free daily T-Shirt drawing, and anyone who buys a polo shirt will be eligible for a drawing for a free Turbo/Mini Jacket. The drawing will be at 4:00 p.m. Sunday.
