

Crofton Bowling Centre to expand to 48 lanes

"We're determined to stay No.1!"

So said Crofton Bowling Centre manager Tom Baldwin last month at a groundbreaking ceremony where it was announced that his center, currently with 32 lanes, will expand to 48.

The expansion will feature Brunswick 2000 equipment, with Anvilane, ColorVision Plus computerized scoring, Olympic Action masking units, Omni IV seating, Twin Lane ball racks, and Armor Plate pindecks and kickbacks.

In addition, the present automatic scorers and masking units will be upgraded.

This \$1.7 million project is expected to be ready for the 1990 summer season.

Baldwin noted that league reservations now are being taken for next summer, as well as the 1990-91 season. Call 261-6670 or 721-2401 for details.
